WORK EXPERIENCE

Intern

Dec 2023 - Feb 2024

- Internship with Obrien, an Australian company
- My main role is diving into their data to uncover useful information
- Power BI and Python to analyze the data and create reports and dashboards that make complex information easy to understand.

Interim Board

Feb 2023 - Present

- Next Tech Lab is a student-run technical body in SRM University.
- As a Member at Next Tech Lab, my role revolves around active participation in a collaborative learning environment and also managing the work flow of the lab.

Team Lead

Nov 2022 - Mar 2023

- Leading in SRM University ECell
- Dynamic team of individuals passionate about entrepreneurship.

PROJECTS

Expense Tracker

[Link](#)

- Developed an expense tracker application using React.js, styled-components, and context API for state management.
- Implemented features such as adding, editing, and deleting transactions, categorized views for income and expenses, and sorting functionality for transaction history using MongoDB

Blog Website

[Link](#)

- A Node.js powered blogging website with MongoDB backend, showcasing blogs with creation dates using EJS templating.
- Includes a search feature for easy exploration of content, ensuring a seamless user experience and facilitating efficient information retrieval.

News Website

[Link](#)

- Utilizes JavaScript to fetch news articles via API, dynamically categorizing them into distinct domains such as entertainment, space, technology, etc.
- Implements a responsive user interface with a navigational navbar, where users can effortlessly access categorized news sections,
